samples of most of the program's media components

this book provides an exhaustive historical account of how the english language was taught and learnt in spain over two centuries since its origins back in 1769 with the publication of san joaquín de pedro's gramática inglesa until 1970 a key year in european and world affairs a period of time ample enough to accurately gauge the impact of this social phenomenon against the backdrop of social and political unrest which looms over the whole period but also with scientific breakthroughs that shaped our modern world the history of elt runs parallel to those events adopting different mainstream trends ranging from the traditional or latin like approach to foreign language teaching to the so called grammar translation method and the direct or oral method however special attention is also given to minor trends such as eclecticism which constantly overlaps the mainstream trends this book is the first to take a close look at how the english language was taught and learnt in spain for a two century period when the french language was the spaniard's first choice when it came to learning a foreign language

this textbook is for three groups of people involved with spanish first for the students enrolled in spanish english linguistics courses second for college and university librarians and third for every spanish language teacher professor we suggest that those who have courses of this type consider this book as a text for those classes for those that do not have them we recommend that you offer them and use this book we also believe that it would also be an ideal book for libraries in which people interested in the topic can go to find out information since there are no available texts as comprehensive as this one it is also a book that all spanish teachers professors should have on their desks and shelves for reference purposes being that it contains a lot of information about linguistics and grammar

a journal dealing with financial economic and shipping affairs
